Santiago de Querétaro, México

Professional Summary

Highly motivated self-taught developer. Seeking to help leaders, entrepreneurs and businesses scale.

Skills: Communication, Collaboration, Critical thinking, Time Management, Python, Linux, CSS, SASS, Bootstrap, TailwindCSS, AlpineJS

Experience

Senior Web Designer – Ligna, LLC & XSELL Marketing

September 2020-Present

- Participating in the whole design-deploy lifecycle of websites, using HTML, Vanilla CSS, SASS, and CSS Frameworks (bootstrap, tailwindcss), JQuery and JS.
- 2D / 3D asset creation (blender, inkscape, illustrator)
- Mobile First and responsive approach
- Internal automation tool creation for the design team using Python and Python GUI libraries

Indie App / Game / Web Developer

2019-present

- **Published "Echoes of a Winter Past", a gamejam visual novel** (<https://deukron.itch.io/echoes-of-a-winter-past>)
 - Character design.
 - UI/UX.
 - Story
 - Tools: Python, RenPy, Inkscape, Krita.
- **Published "The Frog King", a kinetic novel** (<https://deukron.itch.io/the-frog-king>)
 - Character design.

- UI/UX.
- Adaptation of the original tale by the Grimm brothers to fit the kinetic novel format.
- Android build.
- Tools: Python, RenPy, Inkscape, Krita.
- **Published “COSMOSIS”, a minimalistic mindfulness app.**
(<https://play.google.com/store/apps/details?id=com.psicofacto.cosmosis&hl=en&gl=us>)
 - Concept and layout design.
 - Icons, graphics and UI/UX.
 - Code.
 - Tools: Flutter, Dart, VSCode, Inkscape.
- **Published “Zenso”, a mood generator for Windows y Linux**
(<https://deukron.itch.io/zenso>)
 - Concept and prototyping development.
 - UI/UX.
 - Code.
 - Audio editing and creation of binaural sounds.
 - Tools: Javascript, HTML, CSS, Electron, Inkscape, Audacity.
- **Adaptation of psychometric test for clinical use (BDI-II, BDA, SCL90-R, CUIDA)**

Psychometric tests are broadly used within the mental health context. By automating the application and interpretation of data from the subjects, we sped up the overall therapy process.

- Herramientas: Python, Inkscape, RenPy.
- **Key achievement:** By using RenPy, which is a visual novel engine as a Framework, we reduced production time from 4 weeks to only 2.

Front End Developer / Designer

Custom ERP development

Start of 2019

I participated in the early stages of development of a custom ERP system for a private language school. The backend of the project was done in Django with an Angular frontend.

- UI/UX.
